

# Go Beyond the Grades School Success Group!

*Creating safe, positive and productive learning environments for our children.*

## The Agreement

The purpose of this group is to share ideas that will help the students of our communities get the most from their educational environment.

All are welcome here: students of public, private, charter, magnet, alternative, technical, and home schools all are working towards a common goal.

Providing a safe, positive, productive learning environment for our children.

With this in mind, all members of the group are asked to agree to the following guidelines:

- All posts and comments are to be constructive and solution oriented.
- No “bashing” schools, teachers, budget issues, etc. This group is about creating the best possible outcomes regardless of circumstances beyond our control.
- Feel free to invite friends to the group who have children in the Aquidneck Island area. Our focus is on how we can better our educational environment on a local level.
- You may freely share any content posted to the group. Please site the source of the content if it was contributed by a specific person or organization.
- Most importantly, have fun! Share creative ideas, ask thoughtful questions, and congratulate those who make positive and helpful contributions.

Let's make this the best school year yet!
